Date: 05 December 2022

To whom it may concern,

     I'm writing this letter to recommend that Ms.Win Ei Khaing had been a full-time employee of ETAG RFID Company Limited since 1 May 2019 to 31 July 2021 as a Software Engineer.

     She worked as a key contributor to both front-end and back-end software development, implementation, and testing. Details of her job scope include the followings.

- Proposed and implemented the database design
- Involved in SDLC together with the team as well as independently
- Developed RFID technology related solutions which include Asset Management System, Inventory Management System, Point of Sale, and Asset Tracking System
- Developed the following comprehensive applications
  - Web applications
  - Window applications
  - Window services
  - Web APIs
  - Restful APIs

     She had applied the following programming languages and database server when she was with our company.

- C#, .NET, .NET Core, ASP.NET MVC
- HTML5, Bootstrap, CSS3, JSON, JavaScript, jQuery, Kendo framework
- MSSQL database server, Entity Framework, LINQ
- Version Controls using SVN and Git
- Visual Studio
- IIS server

She knows how to use the following technologies as well.

- Angular JS
- TFS version control

If you have any further questions, please feel free to contact me at nwe@e-tagrfid.com.

Yours faithfully,

Nwe Hlaing Oo
Software Manager
